Fully available for flexible hours (4–8+ hours/day) with complete time zone adaptability — able to overlap fully with US (EST/PST) or EU schedules as needed.

IT Support Technician | Automation & Remote Operations

Dedicated IT professional with over 2 years of experience in high-volume, 100% remote technical support for the healthcare sector. Bilingually proficient (Portuguese/English), I specialize in troubleshooting complex systems and optimizing infrastructure through Python automation, achieving documented 200% efficiency gains. Fully available for flexible hours and immediate alignment with US (EST/PST) or EU time zones.

Core Competencies

- **Remote Technical Support & Troubleshooting (TeamViewer, AnyDesk, VPN, Remote Desktop)**
- **Healthcare IT Systems (Smart/Pixeon, Solus)**
- **Ticketing Systems (GLPI)**
- **Hardware Optimization & Repair (performance tuning >100%, reduced hardware wear)**
- **Scripting & Automation (Python, JavaScript)**
- **Operating Systems (Windows – advanced; Linux – intermediate/learning)**
- **Soft Skills: Proactive Problem-Solving, Clear & Respectful Communication, Team Collaboration, Time Management, Adaptability, Customer-Focused Efficiency**
- **Languages: Portuguese (Native), English (Professional Working Proficiency – excellent reading/writing)**

Professional Experience IT Support Technician Data7 Tecnologia | Hybrid/Remote | April 2024 – Present

- Provided 100% remote advanced technical support to multiple major healthcare groups (Olhar Oftalmologia, Niro Otorrinos, União Médica, Humana, COFB),

resolving complex hardware/software issues efficiently via secure remote tools and VPN.

- Specialized in Smart and Solus system troubleshooting and maintenance, consistently meeting or exceeding Service Level Agreements (SLAs) in high-volume environments.
- Configured and optimized end-user machines, achieving over 100% performance improvements and significantly reducing hardware wear through targeted upgrades, cleaning, and settings adjustments.
- Developed custom Python automation scripts (e.g., automated clickers, specialized calculators), resulting in a 200% increase in team operational efficiency.
- Managed IT infrastructure tasks including hardware component replacement, OS formatting/installation, printer/network configuration, and system diagnostics with minimal downtime.
- Utilized GLPI ticketing system to track, prioritize, and resolve client demands quickly and effectively, ensuring fast response times and high user satisfaction.
- Delivered proactive suggestions to improve workflows, maintained respectful and collaborative communication with team members, and remained fully available for after-hours or urgent support when required.
- Handled multiple concurrent projects independently while prioritizing rapid and efficient resolution for all requesters.

Education Bachelor of Science in Systems Analysis and Development (5th Semester) Faculdade UNIFAN

Python Programming Certification Curso em Vídeo

Certificado

Certificamos que
Gustavo Gomes

concluiu com êxito o curso em videoaula

PYTHON 3 - MUNDO 1 [40 HORAS]

com duração total de 40 horas, realizando todas as atividades
e avaliações necessárias, com aproveitamento superior a 70%.

A conclusão foi registrada em 23 de outubro de 2025.

Código do Certificado: 115830-66E2-1

*Certificado válido, amparado pela Lei nº 9.394 de Diretrizes e Bases da Educação Nacional
